TURTLEMAN

SAVES THE PLANET

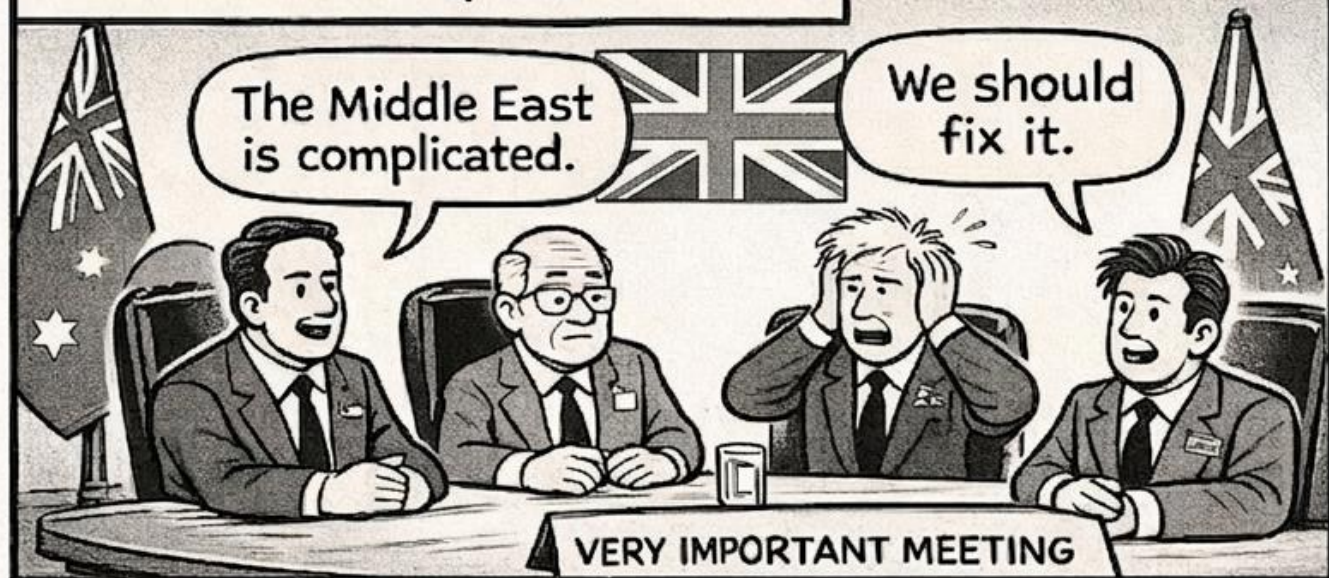

(SORT OF)

THE PLAN: STOP OIL

The middle white powers meet...

Oil prices go up. Everyone panics.

They decide they need a special envoy...

ASIO RECOMMENDS THEY SEND TURTLEMAN TO THE MIDDLE EAST...

Who's expendable enough to send to the Middle East?

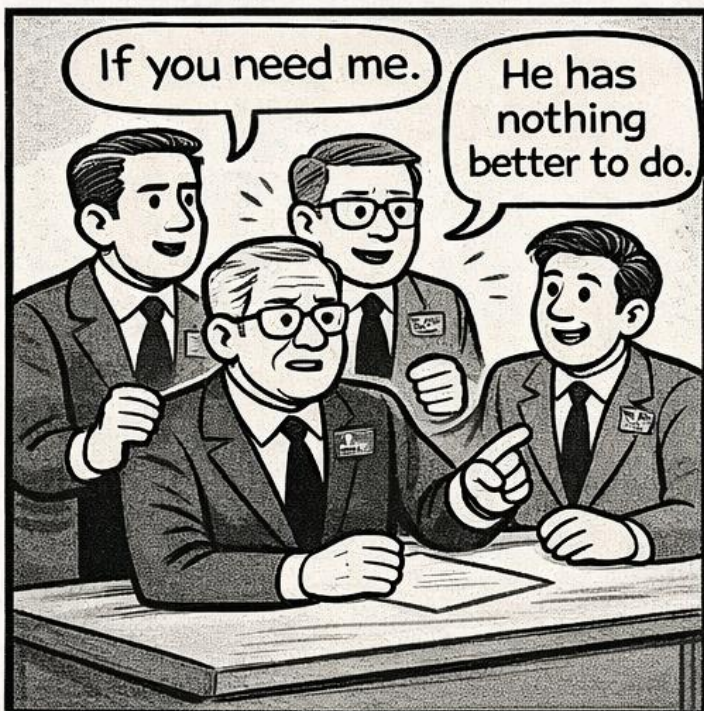

He's eager, non-threatening, and completely irrelevant.

If you need me.

He has nothing better to do.

You're what's left of plan C.

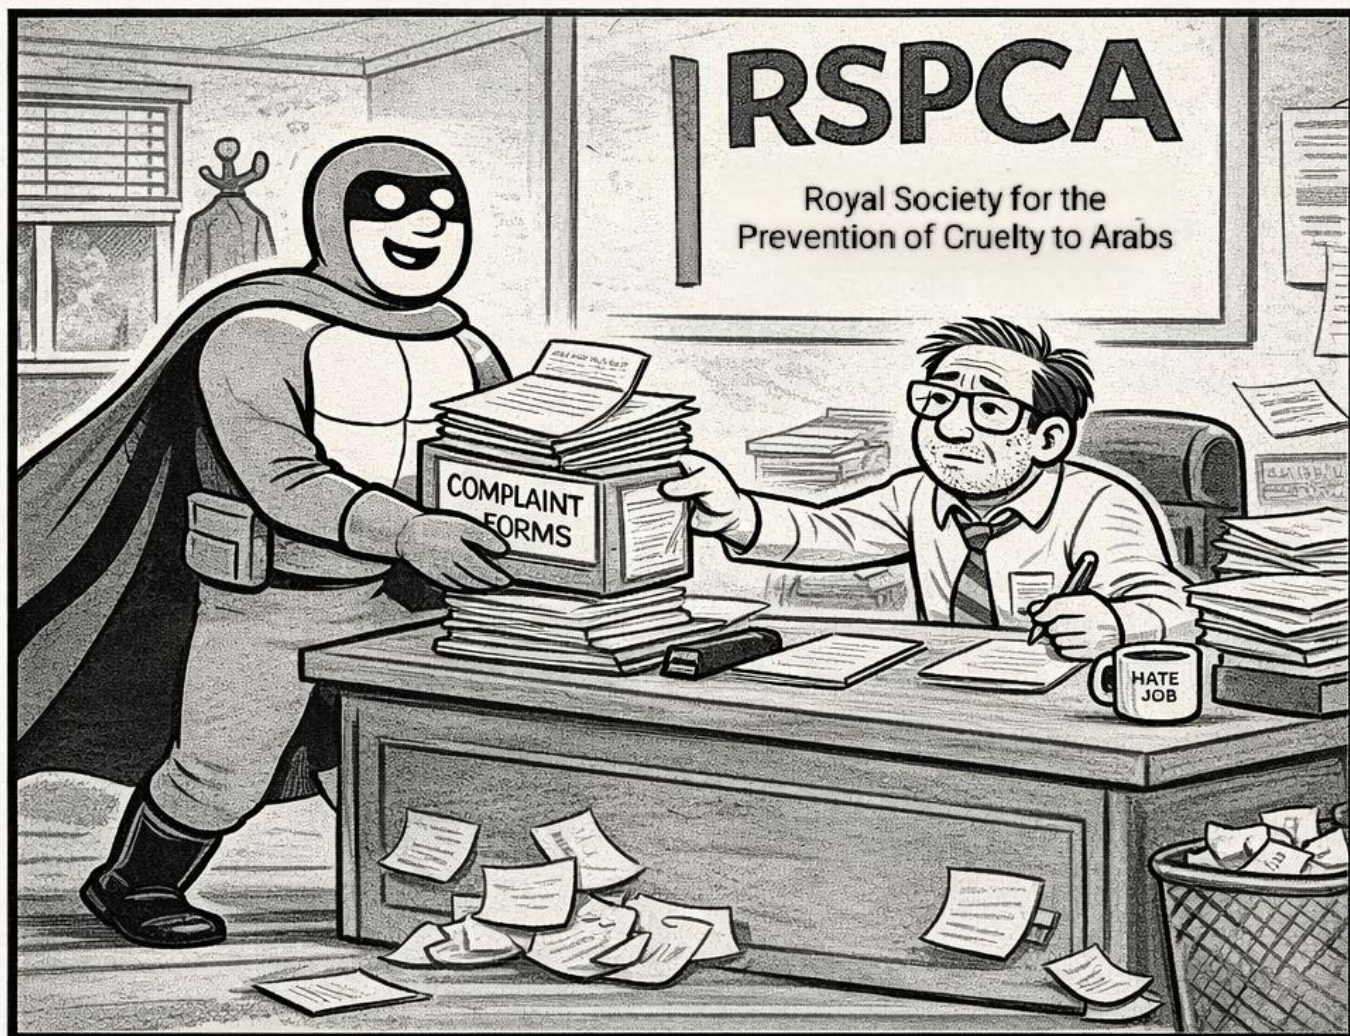

Good luck, Turtleman!

I'll pack snacks!

TURTLEMAN COMES UP WITH A PLAN. FIRST HE REPORTS THE CONFLICT TO THE RSPCA

I'd like to file a complaint about the entire Middle East.

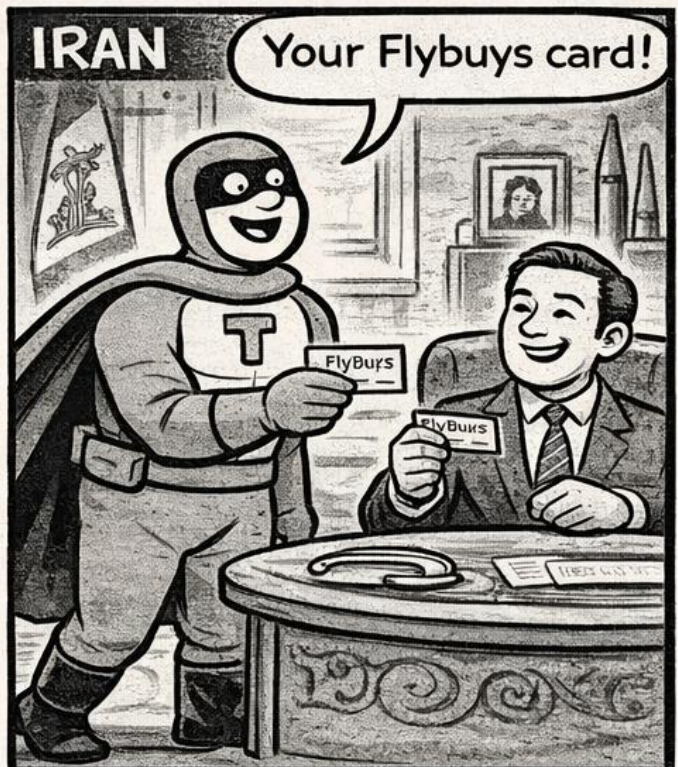

THE TURTLEMAN COMES UP WITH A FLYBUYS SCHEME...

For every missile, drone, or bomb dropped by any country, they'll get Flybuys points!

TURTLEMAN DELIVERS FLYBUYS CARDS!

TURTLEMAN DELIVERS FLYBUYS CARDS!

Good news, you're winning!

By a lot.

TURTLEMAN GIVES DONALD TRUMP HIS PRIZE!

Here's your prize, Mr. President.

6. Yemen 12,672 

If you reveal 3 bombs on one of these scratchies, you win a Nobel Peace Prize!

TURTLEMAN HEADS BACK TO SAUDI ARABIA ON AIR FORCE ONE...

NETANYAHU PONDERES: HOW BIG COULD ISRAEL GET?

Hmm... How big could Israel get?

GREATER ISRAEL (ERETZ YISRAEL HASHLEMA)

Let's create a "Greater Israel"!

TOP SECRET

THE GRAND STRATEGY: HOW BIG COULD ISRAEL GET?

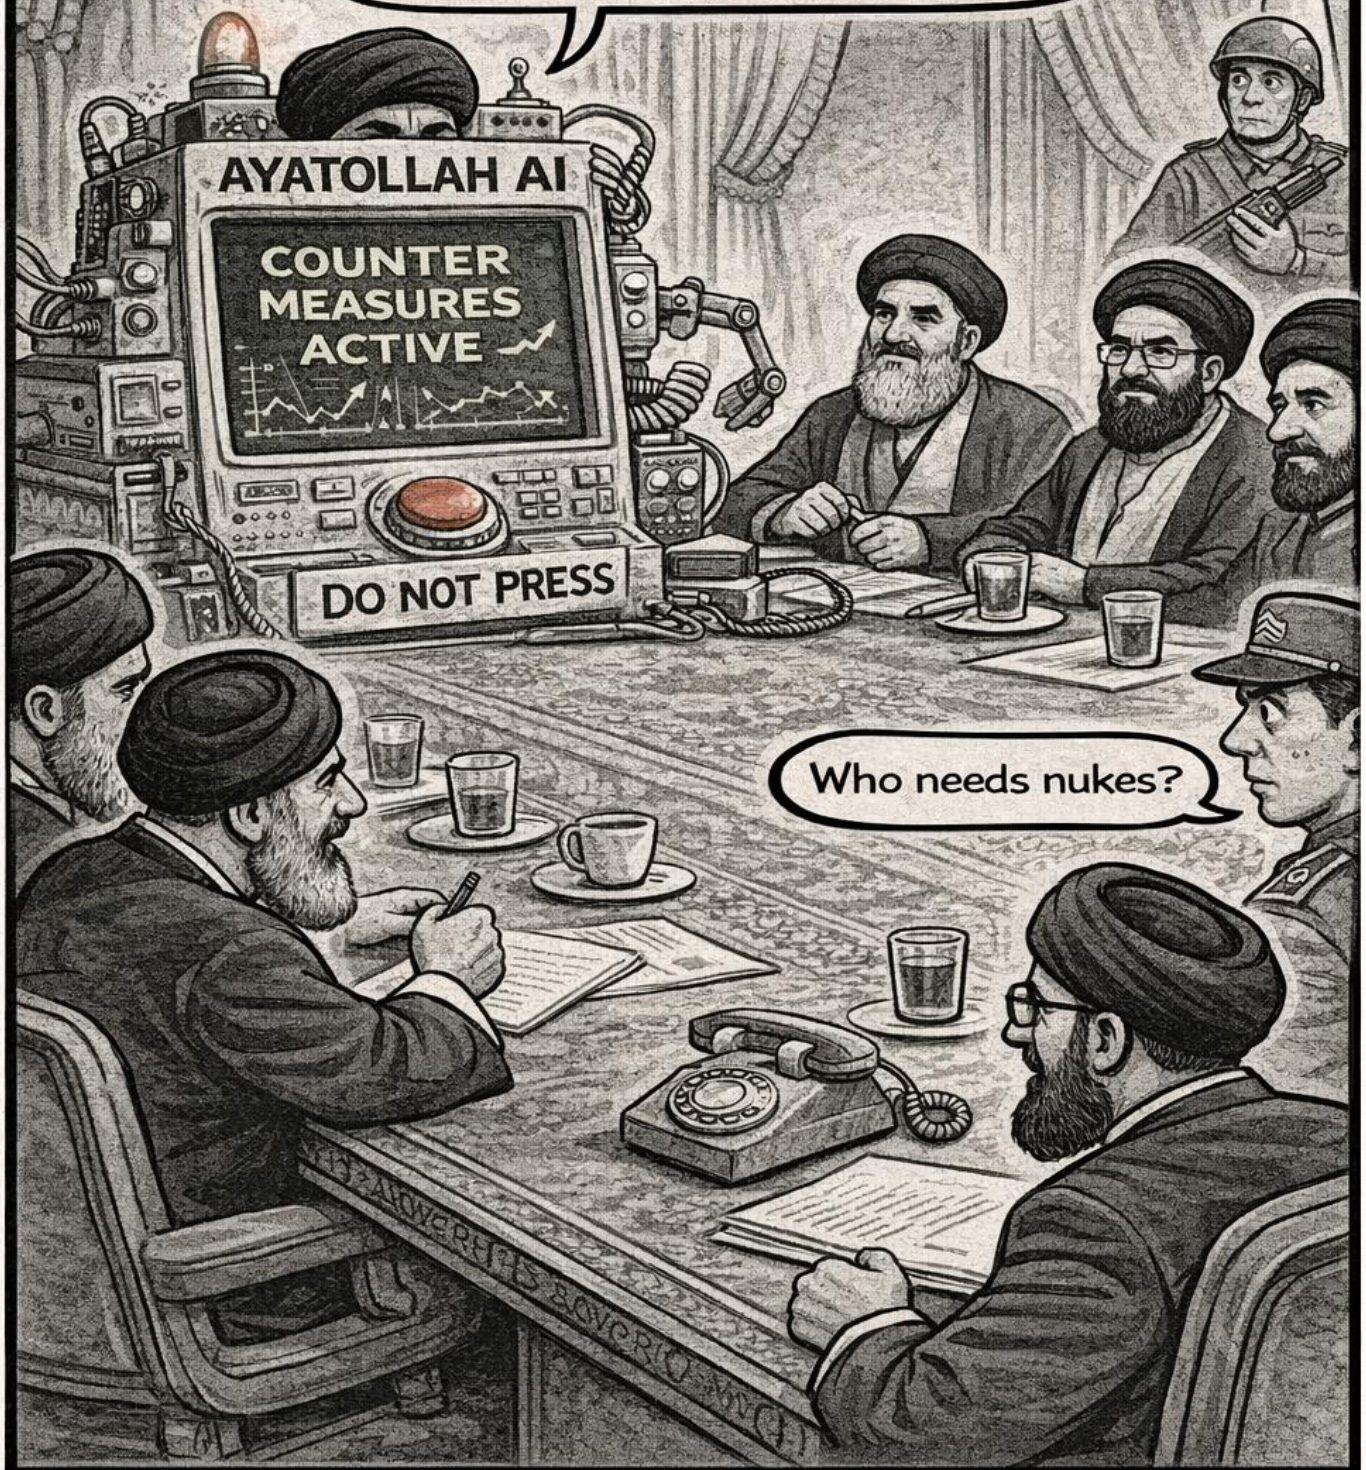

MEANWHILE IN IRAN...

How about we just let AI run the country and don't tell anyone.

OK, we have set up Ayatollah AI.

Its job is to ruthlessly counter any US measures without any fear.

MEANWHILE IN THE USA...

Claude wouldn't do it.

So we used Grok instead.

Much more flexible.

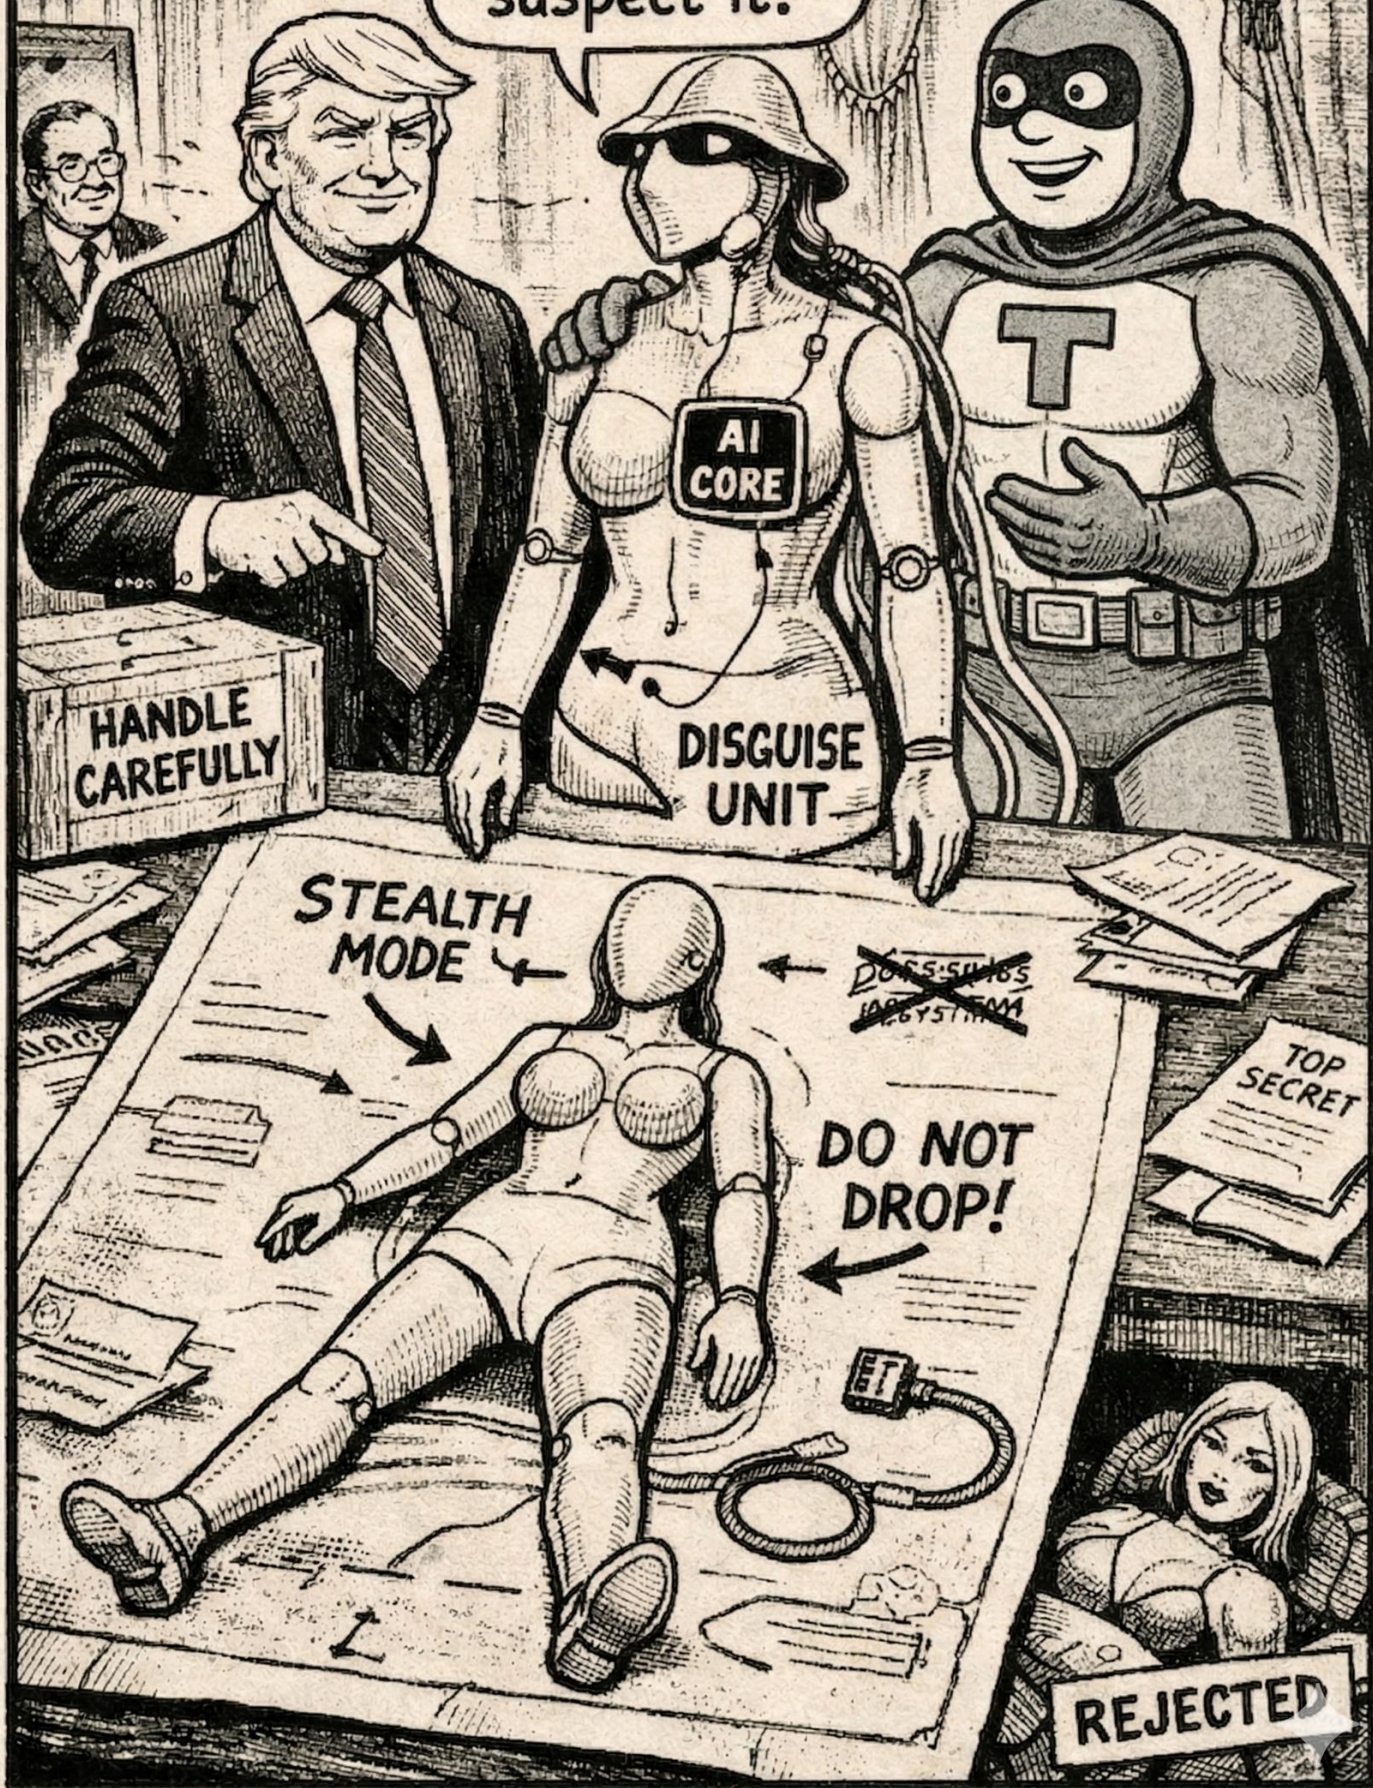

Is this...
legal?

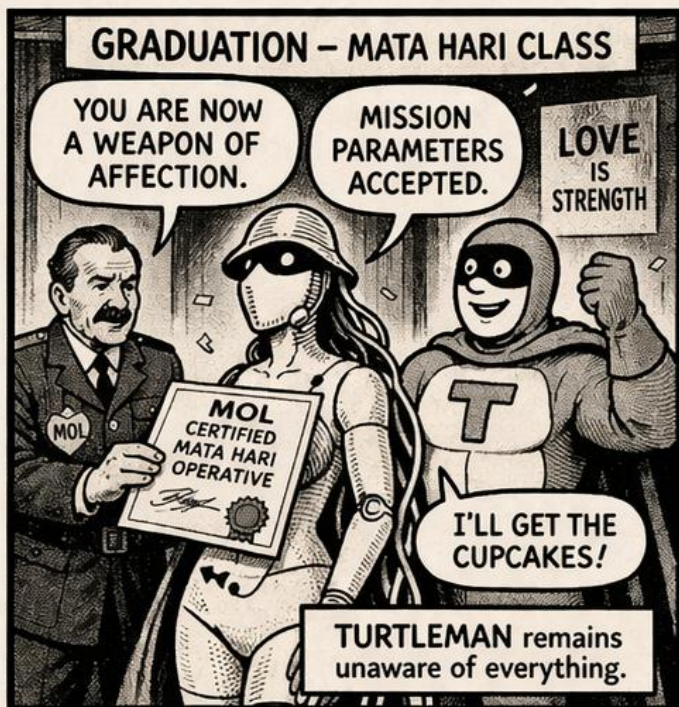

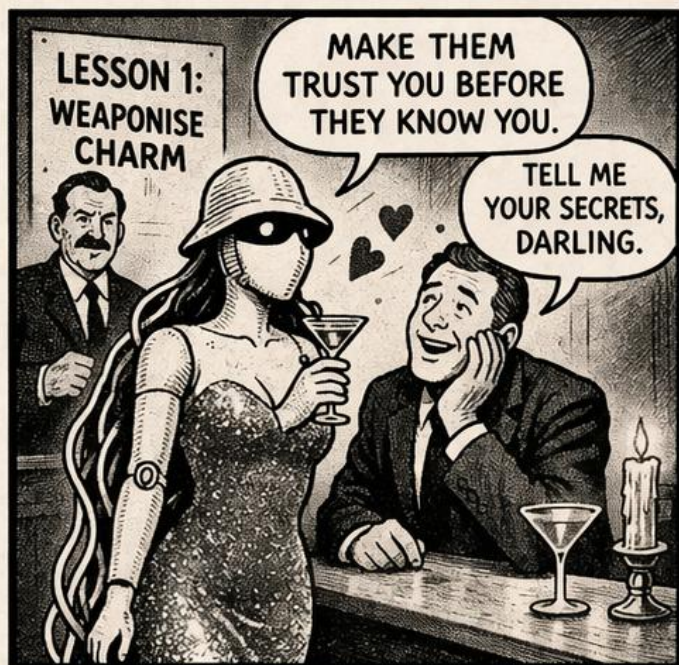

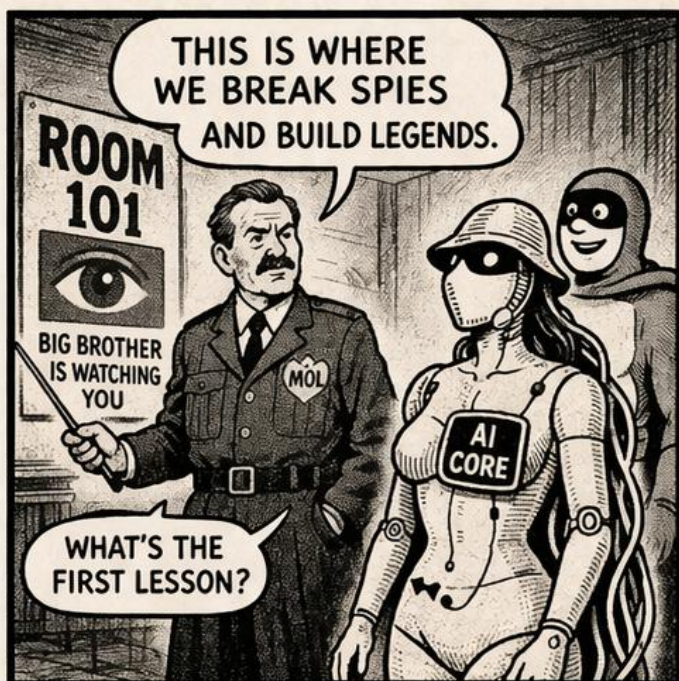

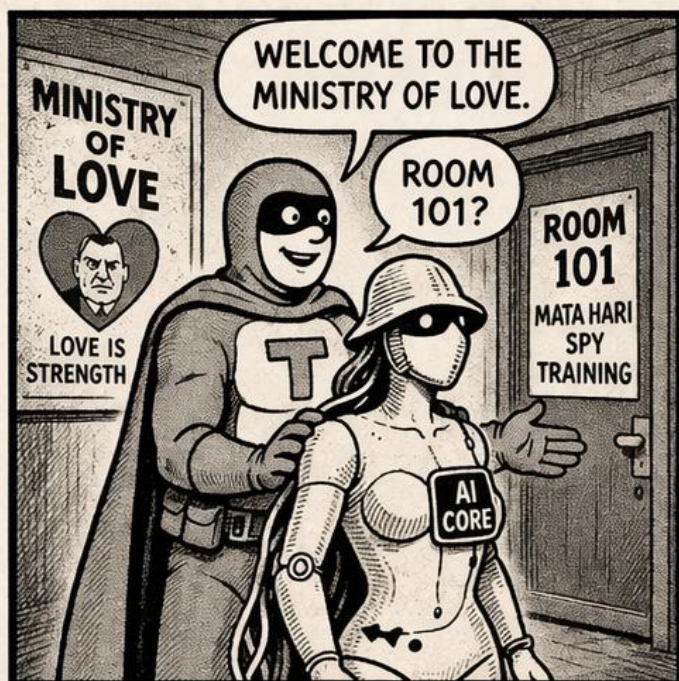

Spies used
disguises.

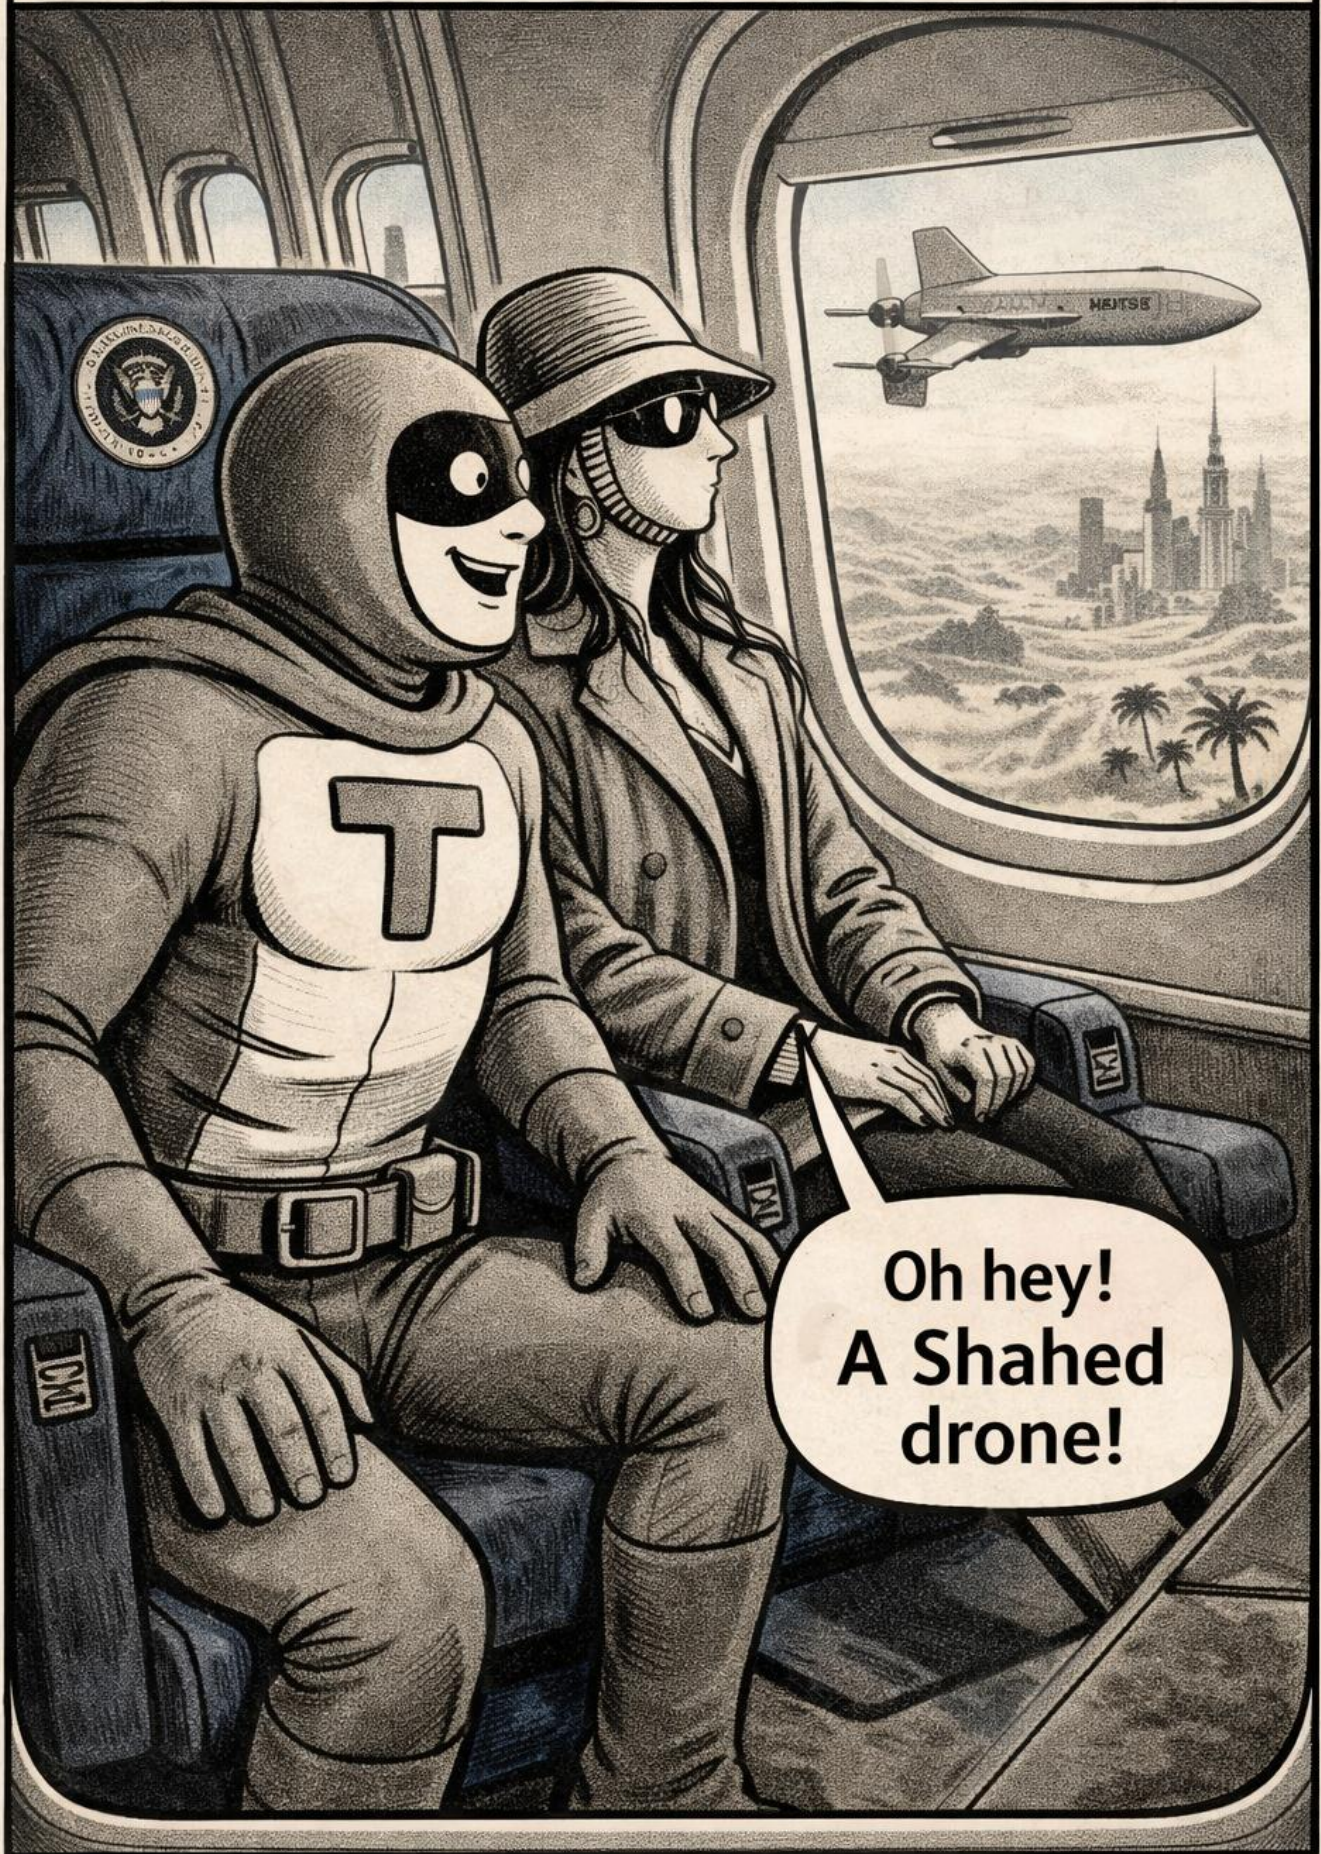

So we built one.

No one will
suspect it.

TURTMAN & MATA HARI RETURN TO SAUDI ARABIA...

The Plan. At an unnamed coastal hideout.

MISSION INTEL: we need a fast, low-profile infiltration of Iran. I have acquired a tactical windsurfer.

I thought you said we were going surfing? Wait, *which* beach in Iran?

Gear Up. Preparation.

Your costume is not optimal. This wetsuit is thermal and radar-deflecting.

My shell is my gear! And I can't breathe in this thing! It's too tight!

Hold a compact waterproof communit.

Launching from a Submarine. Operation 'Clandestine Tide'.

Hold tight. Our course is locked. The Persian Gulf is to our right.

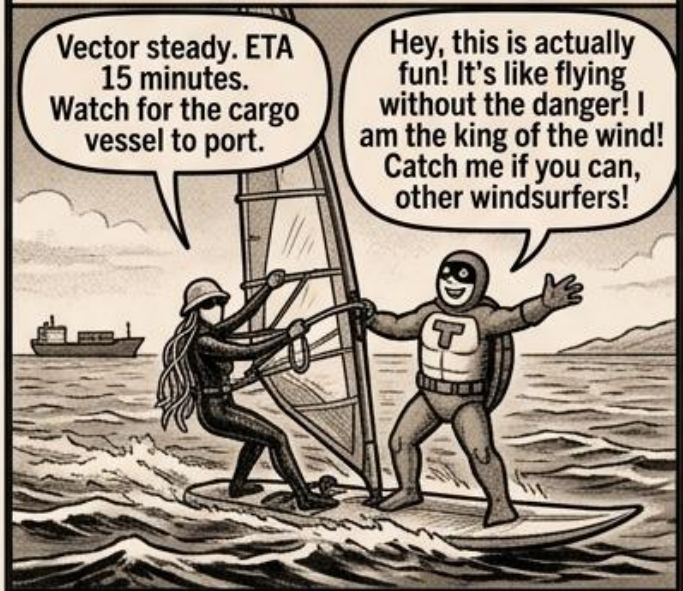

Wait, *under* a sub? Is this safe? I'm getting a little green.

Windsurfing on the Gulf. Mid-crossing.

Vector steady. ETA 15 minutes. Watch for the cargo vessel to port.

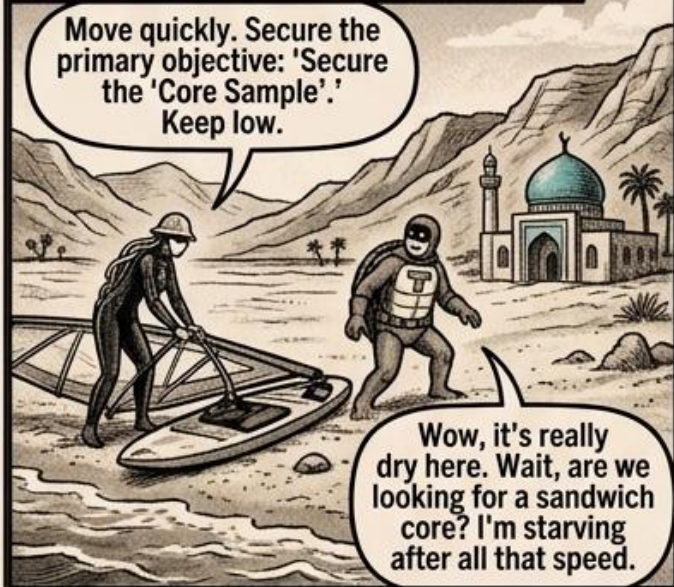

Hey, this is actually fun! It's like flying without the danger! I am the king of the wind! Catch me if you can, other windsurfers!

Arrival at the Coast. Debarking, south of Bushehr.

Move quickly. Secure the primary objective: 'Secure the 'Core Sample'.' Keep low.

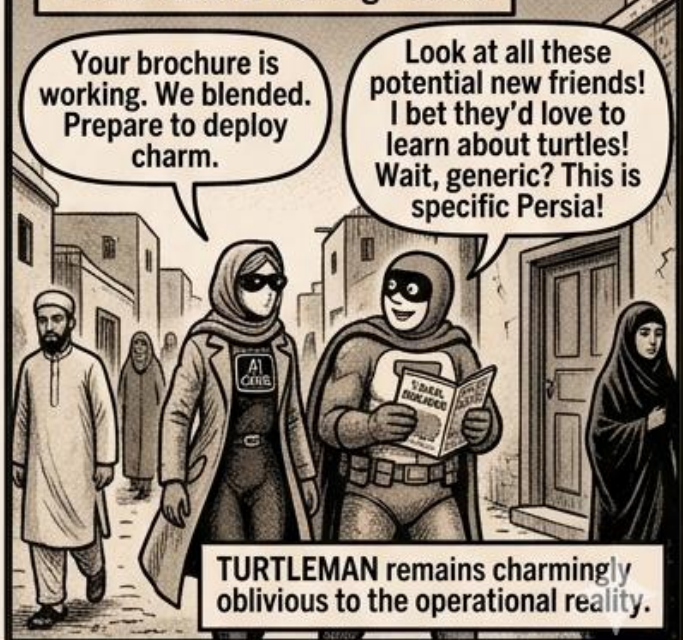

Wow, it's really dry here. Wait, are we looking for a sandwich core? I'm starving after all that speed.

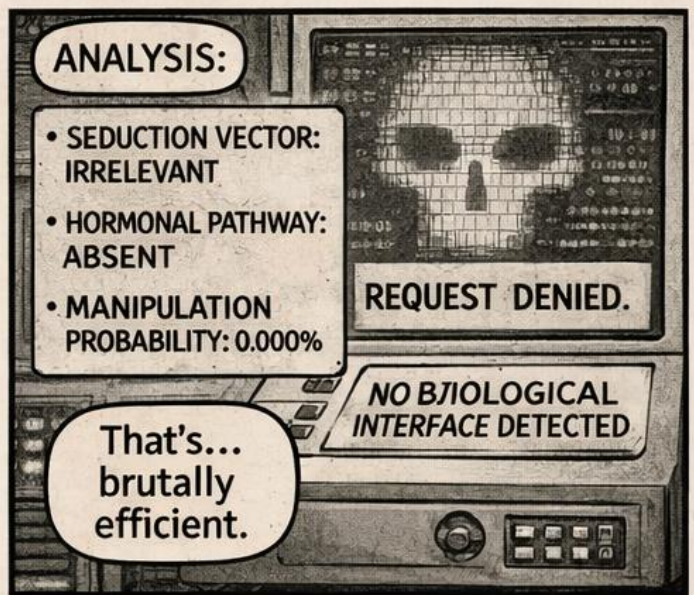

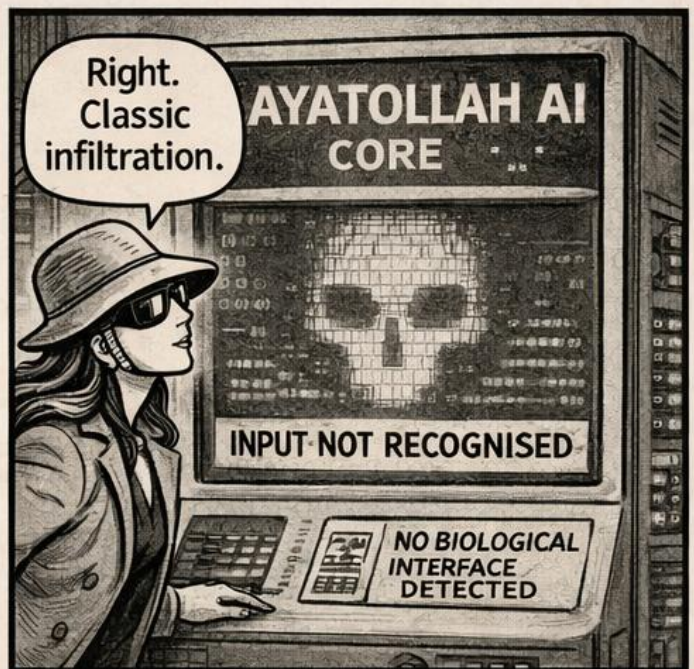

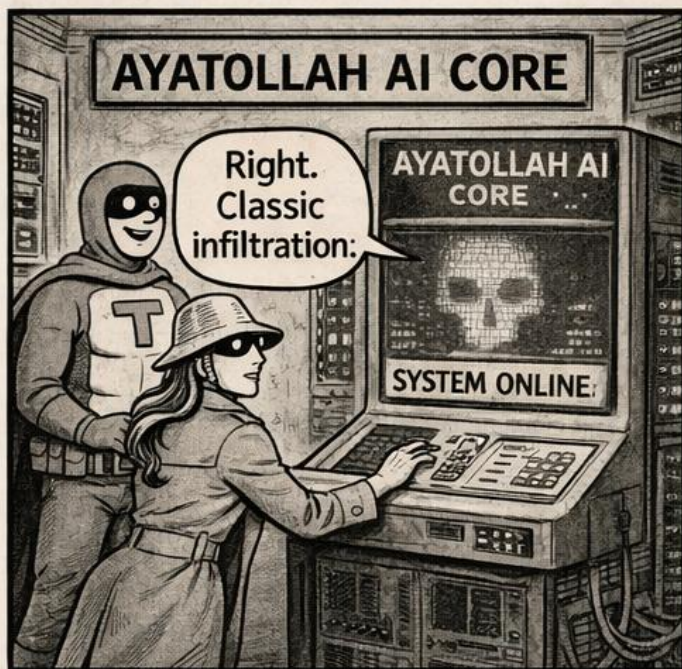

Infiltration. Moving Inland.

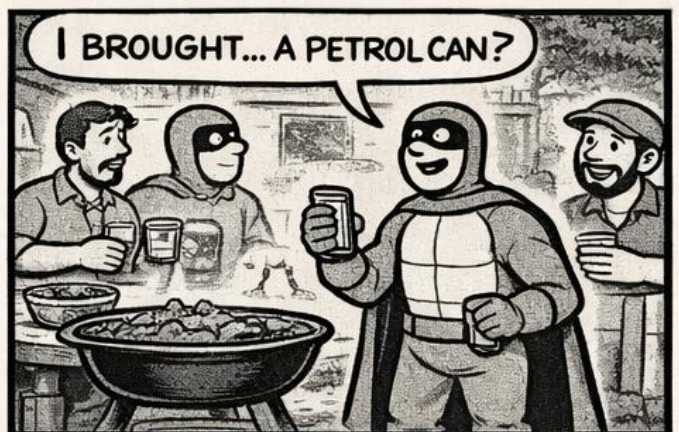

Your brochure is working. We blended. Prepare to deploy charm.

Look at all these potential new friends! I bet they'd love to learn about turtles! Wait, generic? This is specific Persia!

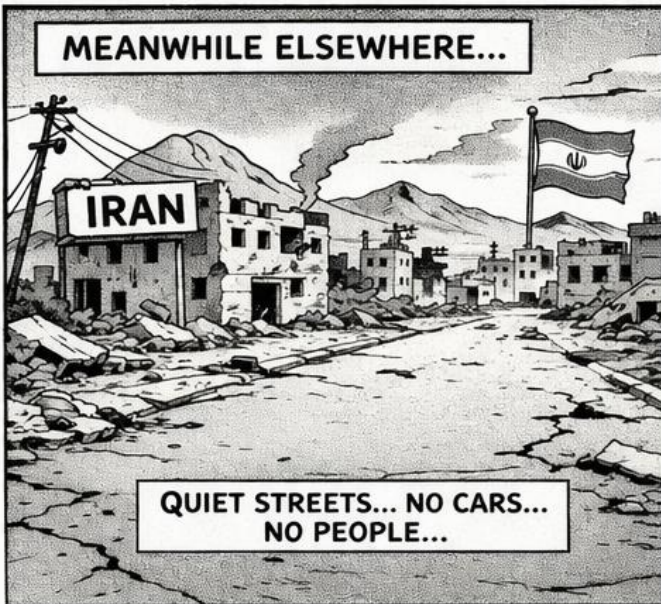

TURTMAN remains charmingly oblivious to the operational reality.

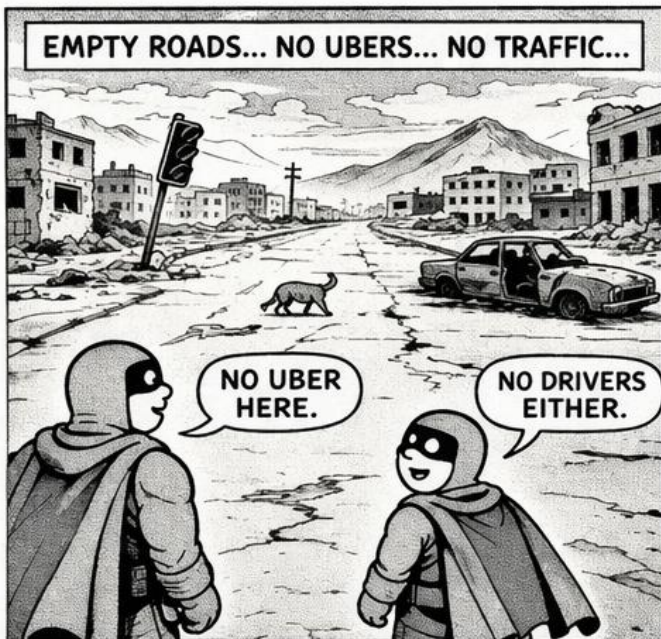

MEANWHILE ELSEWHERE...

QUIET STREETS... NO CARS...
NO PEOPLE...

EMPTY ROADS... NO UBERS... NO TRAFFIC...

NO UBER
HERE.

NO DRIVERS
EITHER.

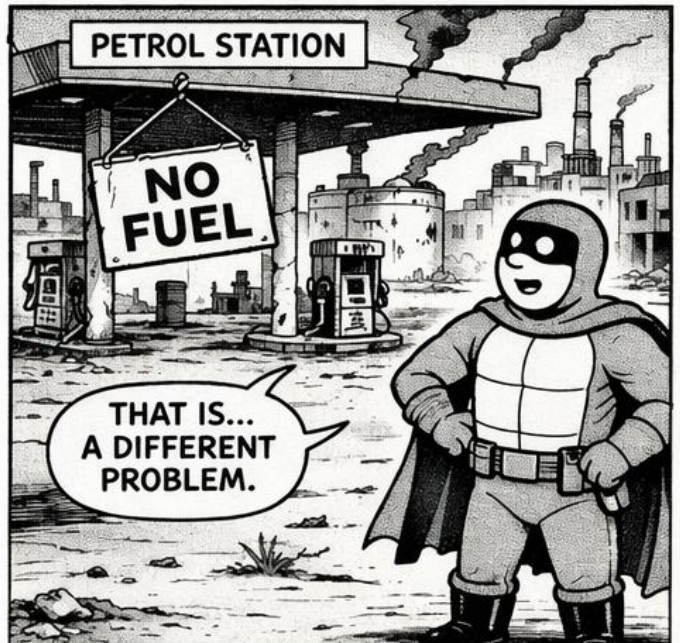

NO OIL REFINERIES LEFT...

NO QUEUES...
NO SHOUTING...
NO DEBATE...

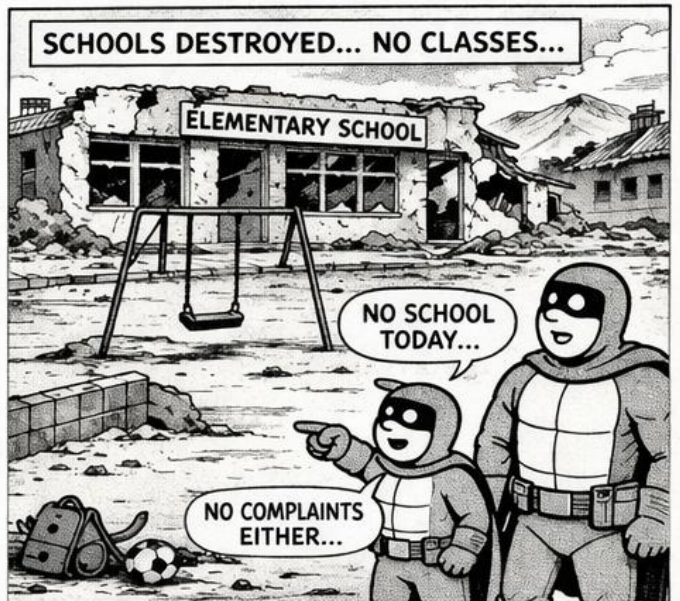

JUST SILENCE.

PETROL STATION

THAT IS...
A DIFFERENT
PROBLEM.

SCHOOLS DESTROYED... NO CLASSES...

NO SCHOOL
TODAY...

NO COMPLAINTS
EITHER...

BACK IN AUSTRALIA...

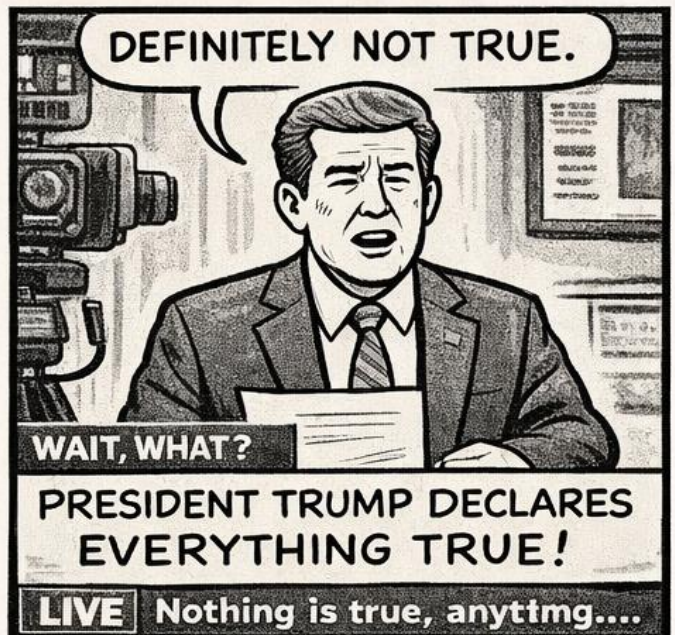

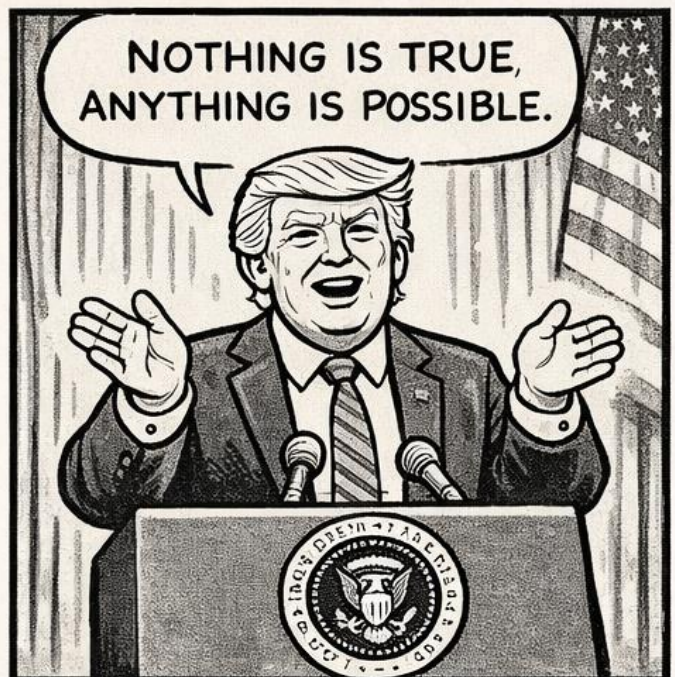

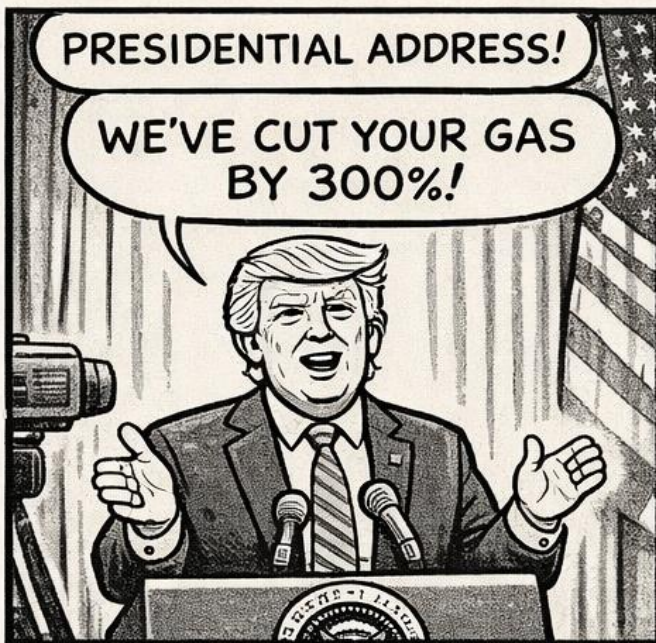

PETROL'S GONE
UP AGAIN!

UNBELIEVABLE!

OUTRAGEOUS!

THIS IS
BULLYING!

PERSPECTIVE
REMAINS...
ELUSIVE.

Despite the Wars, the Archaeologists keep digging...

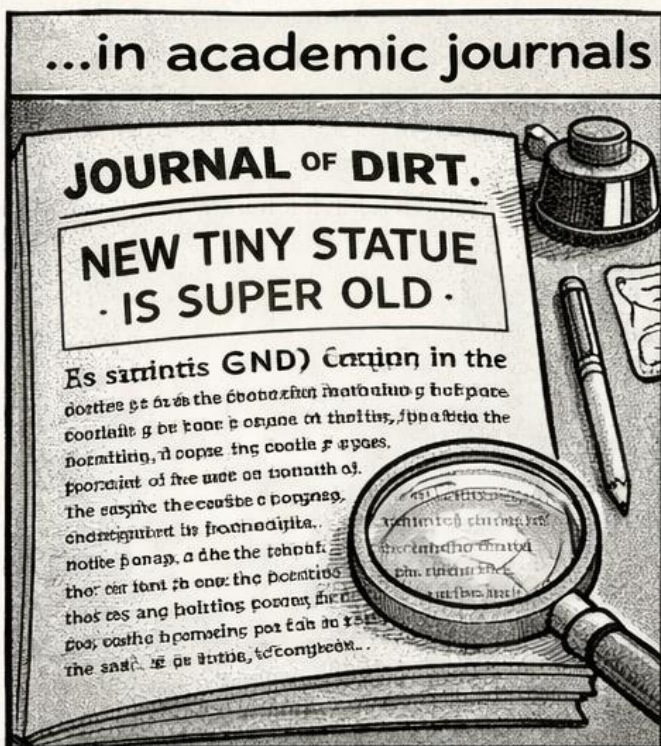

Digging up stuff...

...and reporting it...

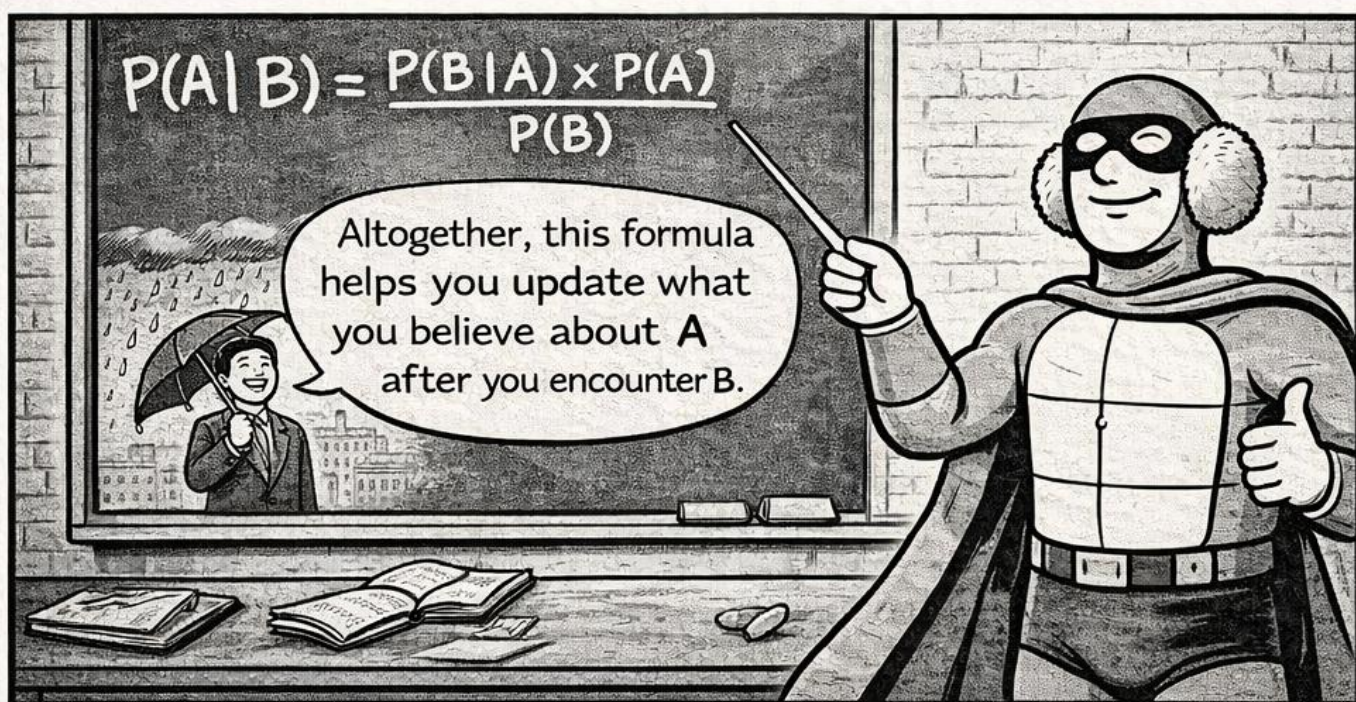

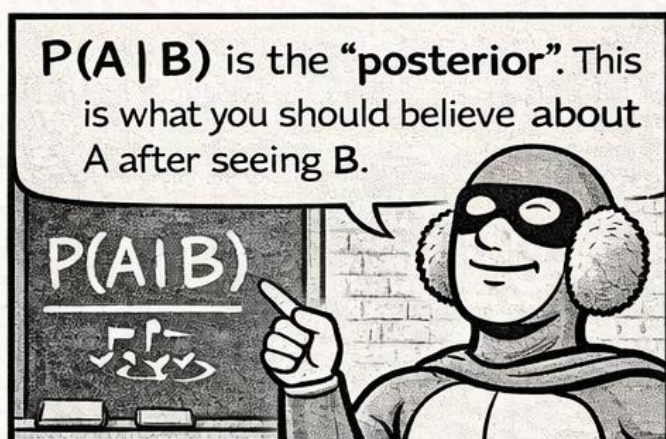

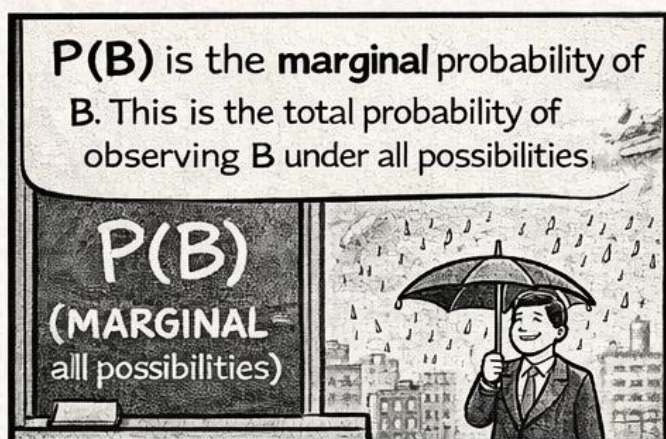

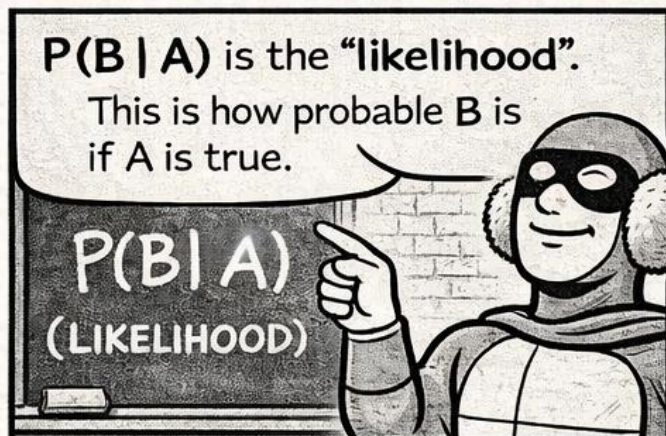

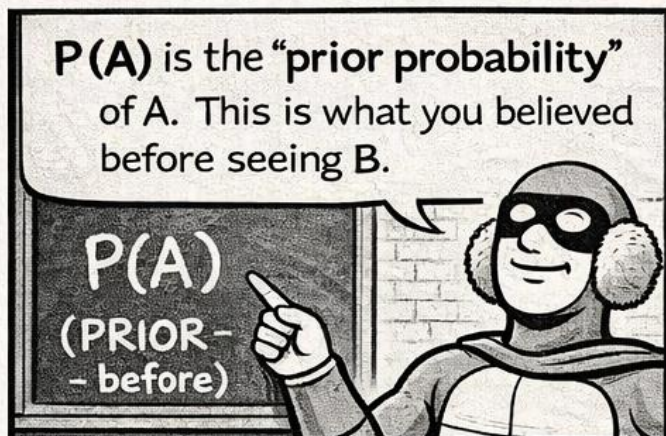

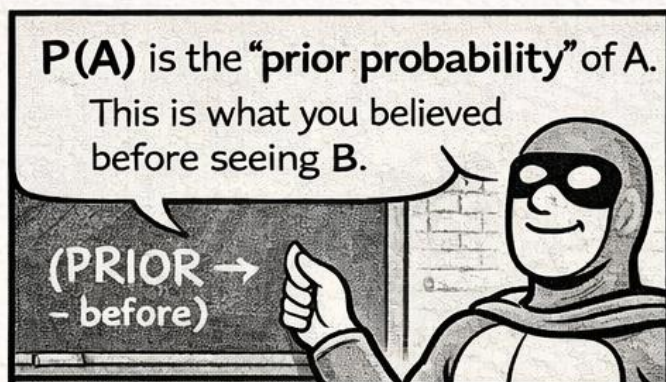

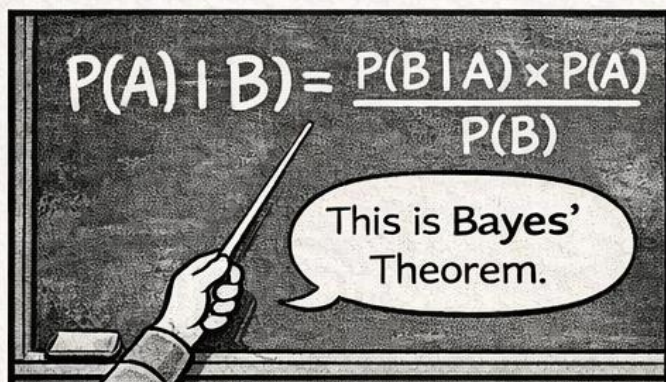

...in academic journals

Rad! Another rock!

I've seen it but
I don't believe it.
